State Normal School, Cape Girardeau, Mo., January 1, 1903.
 To the Senate and House of Representatives of the Forty-second
 General Assembly of Missouri:

Gentlemen—In compliance with section 10000, Revised Statutes of 1899, I have the honor to transmit to you the biennial report of the treasurer of the Third District State Normal school, for the biennial period ending December 31, 1902. I have the honor also to submit, for the Board of Regents, an estimate of the needs of this Normal school for the biennial period beginning January 1st, 1903.

FINANCIAL STATEMENT.

Receipts for the biennial period January 1, 1901 to January 1, 1903, appropriated by the General Assembly.

For salaries and maintenance.....	\$27,000 00
For summer school.....	1,200 00
For library	500 00
For laboratories	2,000 00
For manual training, agriculture, etc.....	500 00
For completing walks.....	1,000 00
For repairing, painting and plumbing.....	250 00
For new building for training school, etc.....	20,000 00
<hr/>	
Total received from the State.....	\$52,450 00
Total received from incidental fees.....	5,243 00
Total insurance received from insurance companies cor- rying insurance on the main building burned April 7, 1902	34,000 00
<hr/>	
Total receipts	\$91,693 00

Disbursements for the biennial period January 1, 1901, to January 1, 1903.

For salaries and maintenance.....	\$27,000 00
For summer schools	1,200 00
For library	500 00
For laboratories	2,000 00
For manual training and agriculture.....	500 00
For completing walks.....	1,000 00
For repairing, painting and plumbing.....	250 00
For new building for training school, etc.....	20,000 00
For incidental expenses and maintenance out of receipts for incidental fees	5,243 00

For heating, plumbing and furnishing the new building, and making changes in the building necessary to meet the pressing needs of the school, and for necessary apparatus and books, and for expenses incident to maintaining the school in various buildings from April 8, 1902, to Jan. 6, 1903.....	12,250	39
Balance to credit of Insurance fund.....	21,749	61
<hr/>		
Total	\$91,693	00

YEARLY SALARIES NOW PAID.

W. S. Dearmont, president	\$2,200	00
B. F. Johnson, mathematics.....	1,100	00
H. M. Joy, mathematics.....	1,100	00
Hattie Marston, English.....	1,100	00
Winifred Johnson, History.....	900	00
H. L. Albert, Biology.....	900	00

<hr/>		
	\$15,300	00

ORDINARY NEEDS FOR MAINTENANCE.

Salaries of teachers, \$19,800, two years.....	\$39,600	00
Salary of secretary and librarian, \$500, two years.....	1,000	00
Salary of one engineer and janitor, \$700, two years.....	1,400	00
Salary of one janitor, \$400, two years.....	800	00
Summer school, \$1,500, two years.....	3,000	00
Mileage and other expenses of Regents.....	500	00
<hr/>		
Total for maintenance.....	\$46,300	00

Library	\$10,000 00
Chemical and Agricultural Laboratory.....	1,500 00
Biological Laboratory	500 00
Physical Laboratory	500 00
Manual Training	500 00
Granitoid walks around new buildings.....	3,000 00

Total for maintenance, equipment and walks..... \$62,300 00

The sum asked for salaries of teachers will provide, in addition to the present corps of teachers, a teacher of Elocution and Music, and a teacher of drawing. Both are needed in a normal school. No instruction in drawing is given at present, except in connection with manual training. We pay a music teacher \$250 a year to come to the school for one hour a day. We need the services of a teacher of vocal music all the time.

The sum asked will make the average yearly salary of seventeen teachers \$1,164.70. The average salary at present is \$982.14. We have a great difficulty in employing and retaining good teachers at so low a salary. The efficiency of the school would be greatly increased by increasing the allowance for salaries as asked. Normal school teachers should be good scholars, and should be men and women of strong, vigorous personality. Normal school teachers may exert a more powerful influence, directly and indirectly, than any other teachers.

The average salary of teachers in this normal school is now less than that of any other normal school in this State or in any other State, so far as I have been able to get reports.

We ask \$3,000 for summer schools for two years. The summer school enrollment in this school for 1900 was 87; for 1901, 116; for 1902, 132. The enrollment for 1902 would probably have been more than 200 if the normal building had not been burned. Our enrollment is kept down in the summer to some extent on account of the limited number of courses that we can offer. In order to do more for those teachers who can attend only in the summer we should have the sum asked for the next two years.

Our library, containing all the books accumulated during twenty-nine years, was a total loss by fire. The work of the school must be seriously hindered until this library is replaced. The sum asked will supply a good working library which will be in daily use by teachers and students.

The total of \$2,500 asked for laboratories is to complete a very moderate equipment of these laboratories. They lost all their equip-

ment, except the physical laboratory. Some equipment has been purchased out of the insurance fund. They need the additional amounts asked to supply some needed apparatus and to maintain them for two years. The chemical and agricultural laboratory is most in need of equipment.

The Manual Training department needs the \$500 to supply some additional bench room for students, and to maintain it for two years. We have bench room for only twelve students to work at one time. The \$500 will supply only the most pressing needs of the department.

The \$3,000 asked for granitoid walks is needed to put walks about the two new buildings, one now about completed and the other to be completed next summer. The \$3,000 will provide only the most needed walks. An additional sum for walks will be needed later.

EXTRAORDINARY APPROPRIATION REQUIRED FOR NEW BUILDING.

The destruction of the Normal School building by fire last April was a calamity as great as unexpected. How and in what manner the fire originated has not and can not be satisfactorily accounted for by the Board of Regents. The fire occurred on Monday night, April 7, and on that day there had been no fire in the furnace and the school had not been in session, the rule at this normal school being to hold sessions on Saturday, but not on Monday. The building was absolutely destroyed with all its equipment, a few naked, empty and useless walls alone remaining. In two days after the fire, however, with great and rare energy, and also assisted by the public spirit of the people of Cape Girardeau, the faculty of the normal school had arranged for temporary quarters to carry on the school work, and successfully under many disadvantages thus close the scholastic year of 1901-1902.

The Normal School building and equipment fortunately was insured for the sum of thirty-four thousand dollars, and for the respective amounts in the following several companies, viz:

Home Insurance Company.....	\$10,000 00
Hartford Insurance Company.....	10,000 00
Royal Insurance Company.....	10,000 00
London & Lancashire Insurance Company.....	4,000 00
Total	\$34,000 00

And the sum was paid by the Insurance Companies without any delay whatever, and enabled the Board of Regents with funds so available to at once purchase the necessary new equipment and such books of reference and scientific apparatus as was absolutely necessary.

The destruction of the Normal School building necessitated the urgent construction of the science hall building, and for the erection of which an appropriation of twenty thousand dollars had been made by the Forty-first General Assembly of the State, but the construction of which had been somewhat delayed on the request of the Chief Executive of the State. After the fire every effort was made to secure the speedy completion of the science hall building, so that the same might be ready for occupancy in September, 1902.

But owing to the great difficulty in securing skilled labor for the stone work, this building being principally constructed out of native Missouri stone, it is impossible to secure the completion of the structure for September, or in this year. It is now confidently expected that the building will be ready for occupancy on January first, 1903. With some of the funds received on account of insurance all the necessary furniture and also the school equipment, and a steam heating plant provided of a size large enough to heat this building, so that in the new year this normal school will again have its home, though limited, home.

This science hall building being entirely inadequate for the school, the Board of Regents, with the insurance fund remaining on hand, after paying for the furniture, heating plant and equipment, as stated, as well as incidental expenses necessary in removing the dangerous walls of the old building and debris thereof, contracted for the construction of another building, the exact duplicate of the science hall building in size and exterior appearances, but of different interior arrangements, for a training school and which building is now in course of construction and will be ready for occupancy early in the year 1903. The board has been particular not to undertake the construction of the building in cost exceeding the amount available from the insurance fund, and in following generally the plan of the science hall building in the construction of this training school building, believes that nothing has been done to involve either directly or indirectly the State in any unwarranted expense. These two buildings, one standing on the east and the other on the west side of the normal campus, it is confidently expected will hereafter, together with a central or main building to be provided by the State, form a harmonious and artistic architectural unit.

For this main and central building, it is our hope that the General Assembly will make a liberal appropriation—an appropriation warranted by the rapid and phenomenal development which is now taking place in Southeast Missouri, and which in no distant future will make this section the most populous, as it is now the richest mineral and agricultural section in the State.

If ample accommodations are provided for the school, its growth will be very rapid. The normal schools are not able to prepare enough competent teachers to supply the public district schools. They should be well equipped in order that they may invite attendance. In addition to the large number of rural and village districts in the counties of this normal school district, there are more than thirty towns having a population of from 1,500 to more than 6,000. More than twenty of these towns have a population of over 2,000. In addition to this the city of St. Louis belongs to this normal district. The district is, therefore, the most populous in the State. It is at the same time the most compact district in the State. Cape Girardeau was not until recently easily accessible from all parts of the district. But it is now well connected by railroad with nearly the entire district. When the St. Louis, Memphis and Southeastern Railroad is completed next summer its railroad connections will be most excellent. With the exception of Dent and Reynolds counties there will not be a county in the district in which a student may not board a train in his own county and reach Cape Girardeau the same day. The railroad fare to Cape Girardeau from nearly the entire district is less than five dollars. The distance from St. Louis on the St. Louis, Memphis and Southeastern Railroad will be only one hundred and thirty miles, and several trains will pass through Cape Girardeau daily from St. Louis on this road.

With ample accommodations, there can be no possible doubt that this normal school will be very large within the next few years.

It is certainly due the people of this district that ample accommodations should be provided for the education of the teachers of the district. The district is the wealthiest in the State and pays more than half the State taxes. In the twenty-nine years since the school was founded, the State has put in buildings here only \$43,000, including the \$20,000 appropriated by the last General Assembly.

Less than \$250,000 will restore what the school lost in the old building. But, if the old building had remained standing and the school had now the old building and the training school building, provided by the last General Assembly, it would still be entirely without suitable library, ladies' waiting room, offices, and gymnasiums, and

so limited in several other respects that a new building would be needed in a few years. Since the school must have a main building, the board asks that, in addition to replacing what has been lost, the State will provide a suitable library, gymnasiums, ladies' waiting room and offices; that it will provide additional rooms in the auditorium, society halls and general recitation rooms in order to provide for the probable increase of the school; that it will provide for the construction of this building of the most substantial fire proof material and with all modern conveniences. To build and furnish such a building and provide means for connecting the buildings with the power plant will cost fully \$250,000. This estimate is upon a careful examination and report of a competent architect.

PRESENT CONDITION OF THE SCHOOL.

The destruction of the records of the school by fire makes it impossible to make a detailed statement of the attendance by terms for the last biennial period.

The following facts gathered from the catalogues of the school will give some indication of the condition of the school. The total enrollment for each year of the last three years has been:

For the year ending June, 1900.....	292
For the year ending June, 1901.....	367
For the year ending June, 1902.....	363

The burning of the normal building the day before the opening of the fourth term of the year reduced the attendance of the year ending June, 1902. The attendance for that year would doubtless have been 400 or more, but for the fire.

The total attendance, including training school, has been for the last three years:

For the year ending June, 1900.....	332
For the year ending June, 1901.....	443
For the year ending June, 1902.....	433

The first summer school was conducted in 1900, with an attendance of 87; in 1901, the attendance was 116; in 1902, the attendance at Cape Girardeau was 107, notwithstanding the loss of the building and equipment.

DIPLOMAS ISSUED.

1900	21
1901	27
1902	23

ELEMENTARY CERTIFICATES ISSUED.

1900	25
1901	22
1902	37

The figures show that the school is in an excellent condition. The large increase in the attendance for the last two years, reaching in 1901, the last year before the fire, 367, shows that the school under normal conditions would rapidly reach an attendance of 400 or 500 students. The attendance of the school for the last two years has been larger than that of the largest college of the State.

Very respectfully,
LOUIS HOUCK,
President Board of Regents.

REPORT.

State Normal School, Cape Girardeau, Mo., January 1, 1905.

To the Senate and House of Representatives of the Forty-third General Assembly of Missouri:

Gentlemen.—In compliance with section 10000, Revised Statutes of 1899, I have the honor to transmit to you the biennial report of the treasurer of the Third District State Normal School, for the biennial period ending December 31, 1904. I have the honor also to submit, for the Board of Regents, an estimate of the needs of this Normal School for the biennial period beginning January 1, 1905.

SCHEDULE OF SALARIES BY THE YEAR

W. S. Dearmont, President.....	\$3,000
B. G. Shackelford, Physics.....	1,800
B. F. Johnson, Mathematics.....	1,400
E. A. Hayden, Psychology and Pedagogy.....	1,400
Hattie Marston, English.....	1,400
Winifred Johnson, History.....	1,260
H. L. Albert, Biology.....	1,260
B. A. Thaxter, Latin.....	1,260

R. W. Clothier, Chemistry and Agriculture.....	1,260
Myrtle Knepper, Assistant in Mathematics.....	840
Charles Lamb, Manual Training.....	1,050
Julia B. Dunnica, Elocution and Physical Culture.....	735
Celia Campbell, Music and Drawing.....	1,050
Lola M. Harmon, Supervisor of Training School.....	1,260
Olive Blanchard, Critic Teacher.....	750
Katherine Pasch, Critic Teacher.....	800
Elma Ealy, Kindergarten Director.....	500
Hattie Sloan, Librarian.....	480
R. C. McKnight, Secretary.....	600
John Stausing, Engineer and Janitor (house furnished).....	480
Charles Stausing, Janitor	420
For Assistant Janitors	360
Total.....	\$24,625

ESTIMATES FOR SALARIES AND MAINTENANCE.

Present Annual salary list.....	\$24,625 00
For additional teachers	6,755 00
For support of three months summer school.....	6,680 00
For heating, lighting and water.....	1,200 00
For further equipment and support of four laboratories and Manual Training and Domestic Economy.....	3,000 00
Increase in engineer and janitor service.....	2,040 00
 Total for one year.....	\$44,300 00
For two years	88,600 00

The new main building of the Normal School will be completed by September, 1905. On account of the largely increased facilities that the school will then have it is estimated that the attendance for this biennial period will be double that of the last biennial period. To employ the assistant teachers that this increase will necessitate, and to employ a teacher of Domestic Economy, an increase in the salary list of \$6,755 will be required.

The school now maintains a summer quarter of three months. This summer quarter has during the last biennial period had a very inadequate support. The estimate for its support in our last report was \$3,000. The school was then maintaining a seven-weeks' school, but to meet the needs of the teachers of the district it was found necessary to maintain a twelve-weeks' summer school. To support this school the \$6,680 estimated will be required.

The school has four laboratories; a Physics laboratory, a Chemical laboratory, a Biological laboratory and a Psychological laboratory.

The Psychological laboratory is very poorly equipped. The other three laboratories need some additional equipment and all the laboratories need constantly some new supplies.

The Manual Training department needs additional work benches and tools, and a supply of lumber, and other material for the work must be provided.

A full equipment must be provided for the department of Domestic Economy. The \$3,000 estimated is needed for the four laboratories and the departments of Manual Training and Domestic Economy.

The estimated increase of \$2,040 a year for engineer and janitor service will be very necessary. To operate the new heating and power plant that will be required when the main Normal building is completed, a thoroughly competent engineer will be needed. The annual salary for this service at present is \$1,440, including allowance for house rent. The amount of service required will be more than doubled.

This fact together with the need of more skilled service makes the estimated increase necessary.

Estimate for completing and furnishing new building, building power house and making connections with the buildings, grading grounds and putting down walks, and purchasing books for the library:

Power plant, heating and ventilating apparatus, heat regulating and lighting.....	\$39,375 00
Power house, smoke stack and conduits from power house to buildings.	14,811 00
Furnishing new building	20,000 00
Grading grounds, laying walks and providing water supply and fire protection.....	16,000 00
Books for library	10,000 00
 Total.....	 \$100,186 00

The Forty-second General Assembly appropriated \$200,000 for new buildings for the Cape Girardeau Normal School. The Board of Regents used \$13,000 of this appropriation in completing the Training School building, in heating and plumbing it, in erecting a tank for water supply for the building and for fire protection, and in furnishing the Training School building.

With the \$187,00 remaining the Board of Regents proceeded to erect a new main building to replace the building burned on April 7, 1902. The board have proceeded with the greatest care and economy in this matter. They are erecting a splendid stone structure 260 feet by 180 feet at its greatest depth, and three stories high. The board have spared no effort to see that this building is supplied with every useful modern convenience and that its construction should be thorough and substantial in every respect. The business experience of the members of the board and their time has been freely given to the State to the end that every dollar spent should bring to the State its full value. They feel that the results accomplished will

convince the General Assembly, through its visiting committee or any further examination that the General Assembly may see fit to make of the work, that the entire appropriation has been spent with the greatest care and economy. They offer the results already accomplished as the best guaranty that the further appropriation asked to furnish a heating plant and power house for the entire Normal plant, and for furnishing this building, and for grading the grounds and putting down walks and improving the approaches to the buildings will be spent with the same care and economy.

The plant, when completed, will consist of three school buildings and a power house, all substantial stone buildings. And these stone buildings will have cost little, if any, more than the same buildings would usually cost in brick. Academic hall will be the largest and most valuable stone building owned by the State.

Notwithstanding the fact that the growth of the school has been retarded for the last three years by the burning of the Normal building in April, 1902, a glance at the enrollment each year since the foundation of the school will show that the school is now entering upon a period of rapid development. Two new dormitories are now being built near the State's property. One of these dormitories will be completed by the first of March, 1905. The other will be completed by the first of September, 1905. These dormitories are elegant three-story stone structures heated by steam and lighted by electricity and supplied with all modern conveniences. The first dormitory completed will accommodate about eighty young women. These dormitories, by making the accommodations of students better, and the cost of board moderate, will greatly increase the attendance of the school.

These two dormitories are being built by citizens of Cape Girardeau at a cost of about \$35,000 each. They are a monument to the local pride and interest in the school.

Respectfully submitted,
 LOUIS HOUCK,

President of the Board of Regents.

TREASURER'S REPORT.

Cape Girardeau, Mo., Dec. 31, 1904.

To the Honorable, the Forty-third General Assembly, of the State of Missouri:

Gentlemen.—In obedience to section 1000, Revised Statutes of Missouri, 1899, I herewith submit to you my biennial report as Treasurer of the Board of Regents of the State Normal School, District No. 3, situated at Cape Girardeau, Missouri, showing all the receipts of said school during the years 1903 and 1904, and to whom, and for what purpose the same has been paid out.

SALARY AND MAINTENANCE.

By an act of the General Assembly of Missouri, approved April 11, 1903, there was appropriated for "Support and Maintenance" of this school the sum of \$46,300.00. This sum was received by me as follows:

1903.		
March 5	To amount received from State.....	\$2,870 00
April 16	To amount received from State.....	1,615 00
April 27	To amount received from State.....	1,495 00
June 1	To amount received from State.....	1,595 00
June 11	To amount received from State.....	1,515 00
July 9	To amount received from State.....	1,500 00
Aug. 26	To amount received from State.....	1,500 00
Sept. 7	To amount received from State.....	1,540 00

NEW BUILDING FUND.

By an act of the General Assembly of Missouri, approved April 11, 1903, there was appropriated for the purpose of "New Buildings" the sum of \$200,000. Out of moneys appropriated for new buildings I have received from the treasury of Missouri the several sums hereinbelow stated as follows:

1903.		
July 9—By amount received from State.....		\$2,500 00
August 1—By amount received from State.....		6,000 00
August 26—By amount received from State.....		1,500 00
September 10—By amount received from State.....		1,500 00
September 14—By amount received from State.....		1,000 00
October 3—By amount received from State.....		1,200 00
November 10—Amount received from State.....		2,000 00
November 18—By amount received from State.....		5,000 00
December 7—By amount received from State.....		11,672 90
December 21—By amount received from State.....		1,794 00
1904.		
January 15—By amount received from State.....		4,315 41
March 11—By amount received from State.....		765 00
April 30—By amount received from State.....		1,073 73
May 20—By amount received from State.....		12,000 00
July 12—By amount received from State.....		14,000 00

NEW BUILDING FUND—Continued.

1904.		
September 6—By amount received from State.....		946 44
September 12—By amount received from State.....		15,000 00
September 27—By amount received from State.....		17,000 00
November 9—By amount received from State.....		775 00
November 25—By amount received from State.....		24,000 00
Total.....		\$124,042 48
By warrants paid from January 1, 1903 to December 31, 1904.....		\$106,531 34

DISBURSEMENTS.

This sum was paid out as follows:

INCIDENTAL FUND.

This fund is made up very largely (in fact, almost entirely) by fees charged the students attending the school at the rate of \$3.00 per term of ten weeks, or \$12.00 per year for each student. I state account as follows:

TO SUMS RECEIVED FROM JANUARY 3, 1903, TO DECEMBER 31, 1904.

1903.	Amount.
January 3—Cash	\$1 50
January 12—Cash	24 00
January 23—Cash	1 50
January 26—Cash	3 00
January 29—Cash	33 00
January 31—Cash	6 00
February 2—Cash	195 00
February 3—Cash	150 00
February 4—Cash	57 00
February 5—Cash	12 00
February 9—Cash	27 00
February 10—Cash	24 00
February 14—Cash	12 00
February 23—Cash	39 00
March 17—Cash	30 00
March 25—Cash	22 50
April 6—Cash	234 00
April 7—Cash	129 00
April 9—Cash	48 00
April 13—Cash	51 00
April 15—Cash	66 00
April 27—Cash	45 00
April 28—Transfer	180 00
May 27—Cash	40 50
June 8—Cash	22 50
June 15—Cash	3 00
September 7—Cash	1,110 45
September 14—Cash	147 00
September 15—Cash	159 00
September 15—Cash	135 00
September 16—Cash	63 00
September 22—Cash	54 00
October 3—Cash	18 00
October 19—Cash	33 00
November 14—Cash	45 00
November 19—Cash	341 00
November 28—Cash	53 00
December 5—Cash	62 00
December 9—Cash	33 18
December 10—Cash	23 00

INCIDENTAL FUND—Continued.

1904.	Amount.
January 14—Cash	24 00
January 29—Cash	42 00

SCIENCE HALL FUND.

There was appropriated by the Forty-first General Assembly, 1901, \$20,000 for the purpose or erecting a new building, which, subsequent to the fire of April, 1902, has been demonstrated by the Board of Regents as "Science Hall." Of this appropriation there was in the hands of your treasurer January 1, 1903, \$3,905.25, and there has been received from the State treasury since that time on account of said appropriation a balance of \$800.00, which exhausted the appropriation. I state account as follows:

1903.	Warrant No.	Amount.
January 1—To balance due the fund.....		\$3,905 25
April 18—To amount received from the State.....		800 00
Total.....		\$4,705 25
January 11—By amount paid E. F. Regenhardt, bldg. con.	249	1,500 00
February 7—By amount paid E. F. Regenhardt, bldg. con.	275	2,000 00
March 24—By amount paid J. B. Legg, architect fees con.	346	500 00
August 21—By amount paid E. F. Regenhardt, bldg. con. 1904.	641	680 25
December 7—By Incidental fund warrant.....	1,548	25 00
Total.....		\$4,705 25

INSURANCE FUND.

1903.	Warrant No.	Amount.
January 1—To amount in hands of Treasurer.....		\$21,764 60
November 18—To amount of rebate on purchase.....		27 00
December 8—To amount of junk iron, etc.....		226 30
1904.		
June 20—To amount transferred from Incidental fund.....	1,202	80 13
Total.....		\$22,098 03
By warrants paid from Jan. 1, 1903 to Dec. 31, 1904.....		\$22,098 03

This fund was paid out as follows:

1903.		
January 12—Burke & Kilpatrick, plumbing contract.....	250	1,500 00
January 12—Sodeman Heat & Power Co., heating contract	251	2,000 00

August 29—Amount received from students.....	3 00
Total.....	\$1,110 45
September 7—By check transferring this sum to Incidental fund.....	1,110 45
(Since Sept. 7, 1903, the Summer School fund has been merged into the Incidental and Maintenance fund, there being no special appropria- tion in 1903 for a Summer School as such.)	

GRANITOID WALK FUND.

The General Assembly of 1901 provided \$1,000.00 for the building of a granitoid walk adjacent to the State's property. All this appropriation was exhausted prior to January 1, 1903, with the exception of \$6.00, which sum was shown in the treasurer's report of December 31, 1902. I state account as follows:

January 1, 1902—To balance in hands of treasurer.....	\$6 00
January 9, 1903—By warrant transferring to Incidental.....	6 00

SALARY AND MAINTENANCE.

To amount received from the State.....	\$46,300 00
By amount paid out as per vouchers.....	46,300 00

NEW BUILDING FUND.

To amount received from the State.....	\$124,042 48
By amounts paid out as per vouchers.....	106,531 34
By balance on hand.....	17,511 14
Total.....	\$124,042 48

INCIDENTAL FUND.

To amount received from all sources.....	\$7,169 43
By amount paid out as per vouchers.....	6,636 68
By amount on hand in hands of Treasurer.....	532 75

SCIENCE HALL FUND.

To balance on hand last report.....	\$3,905 25
To amount received from State.....	800 00
Total	\$4,705 25
By amount paid out as per vouchers.....	4,705 25

INSURANCE FUND.

To amount on hand last report.....	\$21,764 60
To amount received since then.....	333 43
Total	\$22,098 03
By amount paid out as per vouchers.....	22,098 03

SUMMER SCHOOL FUND.

1903.	
To amount on hand last report.....	\$39 45
To amount received since then.....	1,071 00
Total	\$1,110 45
By amounts paid out as per vouchers.....	1,110 45

GRANITOID WALK FUND.

To balance on hand last report.....	\$6 00
By amount paid out as per voucher.....	6 00

It will be observed that of the appropriation of \$200,000 made by the Forty-second General Assembly for new buildings, the Board of Regents has already drawn out \$124,042.48, leaving a balance in the State treasury to this fund of \$75,957.52. Contracts have already been left for amounts that will exhaust this balance.

I am, Sirs, very respectfully,

ROBERT BURETT OLIVER.

County of Cape Girardeau.
State of Missouri, }
 }

Robert Burett Oliver, Treasurer of the Board of Regents of the State Normal School, District No. 3, situate at Cape Girardeau, Missouri, being duly sworn on his oath says that the above statement of receipts and expenditures for the years 1903 and 1904 is correct and true to the best of his knowledge and belief.

ROBERT BURETT OLIVER.

Subscribed and sworn to before me this the 31st day of December, 1904.

H. L. MACHEN, Notary Public.
